

PANEL WALLS

Unlock the true potential of your square footage and redefine your space with panel walls from Interior Concepts. Our panel walls fit a range of heights, widths, and layout arrangements to meet your needs. Unlike a typical three inch panel thickness, our one inch thick panel requires less space with it's slim profile design. Build off of existing walls or configure as a free standing partition to create offices, classrooms, break out areas, or simple room dividers.

FEATURES

- 1" thick steel framework
- Dimensions customized by the inch
- Limited lifetime warranty
- Made in the USA
- MAS[®] Certified Green

OPTIONS

- Half height or full height hollow core doors
- Laminate, Markerboard, Tackable, or Acrylic inserts
- Screen printed logo

Use panel walls to create multiple divisions in your room! Shown below, panels in blue were used to create private offices, room partitions, and a reception area all using varying configurations and panel insert styles.
